

Polyester Drawn Textured Yarn
Polyester DTY

2021

Polyester Drawn Textured Yarn (Polyester DTY)

Drawn Textured Yarn (DTY) is obtained from Polyester POY and is widely used for weaving and knitting. The multifilament yarn has a soft cottony feel and high durability. As the name suggests it is made by drawing and texturizing the POY. Furnishings, upholstery, bags, innerwear, skin-clinging outfits, etc are commonly manufactured using DTY. Our manufacturing partners utilize the latest high-speed draw texturizing technology and quality anti-static lubricating oils during the process. Timely measures to ensure consistency and superior dyeing quality are taken from our end.

RW – RAW WHITE DDB – DOPE DYED BLACK SD – SEMI DULL TBR – TRILOBAL BRIGHT
 FD – FULL DULL CAT – CATIONIC TPM – Twist per meter

Available Cross Section – Circular, Trilobal, Flat, Octa global Also Available as Ready to Dye Bobbins
