

Polyester High Tenacity Yarn
HTY

2021

Polyester High Tenacity Yarn - HTY

As the name suggests, Polyester High Tenacity Yarn is used for high-performance applications, where Tenacity is an essential factor. Depending on the area of application, High Tenacity Yarn is available in variants like normal shrinkage, low shrinkage, and super low shrinkage. The high tenacity yarn has high durability, toughness and chemical resistance that can survive extreme weather conditions. This category of Yarn is mostly preferred for industrial fabrics, especially airbag fabrics.

Type	Denier	Lustre
High Tenacity Polyester Yarn	80-6000	Bright
